

Prepare Hard Boiled Eggs with Saladmaster

Watch this video to learn how to hard boil eggs in Saladmaster without using water. Preparing hard boiled eggs for your favorite deviled egg or egg salad recipe can now be done in a flash!

Additional Tip: Using frozen vegetables instead of the wet paper towel allows you to cook two things at once without dirtying up a second pan. Remember to turn the temperature down to low after the Vapo-Valve™ clicks for an additional 15 minutes or less, depending on how soft you like your eggs.
