Entrée

1. Preheat skillet over medium heat. When several drops of water sprinkled on pan skitter and dissipate, place steak in pan. Reduce heat to low and cook for approximately 8 minutes. Cook less if medium-rare doneness is desired. Let rest approximately 5 minutes. Carve into thin slices.
2. In large bowl combine cabbage, lettuce, carrots and radishes.
3. Place equal amounts on 5 individual plates. For a beautiful presentation, place salad greens on each plate. Starting from the center of the greens, arrange steak slices into a fan position over salad greens. Arrange cucumber slices in a circle on top of steak slices. Mound $\frac{1}{5}$ cup of rice on top of cucumber slices. Fan pea pods around both sides of rice, radiating down from rice.
4. Serve with Dressing.
